I have to deal with an authorship dispute in my journal. Do you have any advice?

Colleague journal editor
What resources are there for training on research integrity?

Me as a teacher
I am going for a year to a lab in another country. What are the rules for research there?

Benjamin Benzon, MD, PhD
By researchers, for researchers

Who are launching this platform? And for who?
With a network of institutions...
We consulted stakeholders all over Europe…

- Belgium
- Croatia
- France
- Germany
- Ireland
- Italy
- Latvia
- Lithuania
- The Netherlands
- Portugal
- Slovenia
- United Kingdom
- Ukraine
Launching a platform for researchers worldwide.
The platform today

What to expect from day one
Resources

Materials that help you in your every day research practice to do good science. Expect guidelines, video, checklists and whitepapers.

- Guidelines: 132 resources
- Cases: 58 resources
- Tools: 93 resources
- Training materials: 105 resources
Research Integrity Officers

What is this about?

A research integrity officer (RIO) serves a complex, exacting, and unique role within their institution. In one week, they may serve as judge, mediator, counselor, teacher, and regulations manager. They could have the Centers for Disease Control on the phone while a graduate student cries in their office. The RIO is one of the most intricate and unique positions in academia.

Why is this important?

An institution’s RIO promotes responsible research, conducts research training, discourages research misconduct, and deals with allegations or evidence of possible research misconduct (1). Throughout a week, they

What are the rules for the order of authors on an article?

Ana Marušič
I think it would be best to consult journal editors or professional organisations, such as CBE and APA.

In the end, authors should agree on the order.
The platform over time

Our roadmap for the coming period
The platform over time
Our roadmap for the coming period

- **Knowledge** — more resources, thematic pages and discussions
- **Semantic** — towards a Wikipedia for research ethics and integrity
- **Community** — more options for researchers to interact
- **Education** — a training section and train-the-trainer program
- **Interactive** — more functionality such as search and filtering
What to expect from us, and how to contribute

Building The Embassy of Good Science together
What to expect from us

Our promise to the research community

- Improved and new functionality
- ORCID credits for contributors
- Moderation of contributions
- Sustainability for the future

How you can contribute

Building The Embassy of Good Science, together

- Contribute your knowledge
- Improve the content
- Participate in discussions
- Spread the word
The EnTIRE and VIRT2UE projects have received funding from the European Union’s Horizon 2020 research programme under grant agreements N 741782 and N 787580.
